

Molecular Biology

https://us.vwr.com/cms/vwr_life_science_amresco_products

- Wide range of high quality biochemicals and reagents for Molecular Biology, Life Sciences, Proteomics, Clinical and Histology

www.bio-world.com

- Cloning kits, PCR kits, ladders and markers, biochemicals and reagents

www.biotium.com

- Innovative -fluorescence detection technologies and products for life science research
- Genomics, proteomics, molecular biology, cell biology, neuroscience and drug screening

www.origene.com

- Over 30,000 human full-length TrueClone cDNA collections and over 25,000 TrueORF cDNA clones
- Services include codon optimization, gene synthesis, protein in expression, assay development, and unique gene expression

www.vivanttechnologies.com

- Nucleic acid purification kits, DNA/RNA amplification, ladders and markers, restriction enzymes, oligosynthesis, nucleic acid dyes, real-time PCR master mixes, biochemicals & ready-made buffers

www.systembio.com

- Exosome research, genome engineering, cell biology, next-generation sequencing (NGS), qPCR microarrays, flow cytometry

www.mobitec.com

- Nucleic acid purification kits, magnetic beads, competent cells, transfection kits and reagents

www.101bio.com

- Exosome products (Isolation, RNA/ Protein extraction, Transfection)
- Molecular biology products (Fast protein extraction kits: membrane, gel slice, detergent-free, nuclear, GFP antibody)
- Cell biology products (Transfection reagent, long- term cell tracers)

Immunology & Proteomics

www.proteintech.com

- Antibodies, ELISA kits, recombinant proteins, cytokines, growth factors

www.medchemexpress.com

- Biological small molecules (inhibitor, agonist, modulator) in signalling pathways
- Protease inhibitors cocktails, magnetic beads

www.chemscene.com

- Building blocks for molecule design, bioactive molecules, thin layer chromatography, natural products, compound screening libraries, peptides
- Custom chemistry service from small-scale to bulk quantity

www.inventbiotech.com

- Protein extraction kits for various species with optimized buffer systems, cell fractionation and membrane protein isolation

www.bethyl.com

- Over 8,000 primary antibodies targeting over 3,300 proteins & over 1,300 secondary antibodies
- ELISA kits and accessories

www.kingfisherbiotech.com

- Veterinary & human disease research
- Recombinant proteins, antibodies, ELISA kits for animal health and models

www.scbt.com

- Antibodies, siRNA & shRNA products, plasmids, tissue extracts & cell lysates, proteins, transfected cell lysates, sera, specialty reagents & kits
- Biochemicals, buffers, lab supplies

www.mybiosource.com

- Huge collection of antibodies, ELISA kits, recombinant & native proteins, bulk reagents

www.cusabio.com

- Gene, protein, antibody, ELISA kit, raw material
- >1000 types of ELISA kits for 37 species, > 6000 antibodies

www.fn-test.com

- Over 9,000 antibodies for WB, IHC, IF
- Over 6,000 high quality ELISA kits

www.vivanttechnologies.com

- Custom polyclonal antibody services, peptide synthesis
- Protein biochemicals
- Protein Ladder

www.abbiotec.com

- Over 5,000 antibodies with unique epitopes for apoptosis, cancer, diabetes & obesity, immunology, inflammation
- Synthetic peptides, recombinant proteins, lysates, ELISA kits

Immunology & Proteomics

www.mol-innov.com

- Purified proteins, antibodies, ELISA kits, coagulation and thrombolysis reagents

www.moleculardimensions.com

- Protein stability and crystallization screening kits, optimization kits, reagents and instrumentation

www.immunochemistry.com

- Cell viability assays, ELISA kits and reagents

www.eastcoastbio.com

- Antigens, antibodies, fish blocking reagents for IVD industry

www.meridianlifescience.com

- Antigens and antibodies for infectious diseases, cancer, cardiac & metabolic disorders, hormones and fertility
- Recombinant proteins, PCR enzymes, nucleotides and critical assay reagents

www.phytoab.com

- High-quality antibodies for plants, crops and algae research

www.abclonal.com

- Antibody, antigen, ELISA kits, western blot reagents, NGS library prep kits

www.worthington-biochem.com

- Enzymes such as collagenase, elastase, papain, deoxyribonuclease
- Cell isolation/tissue dissociation kits

www.genwaybio.com

- Recombinant proteins, antibodies, ELISA kits, reagents, peptides, expression systems

www.adipogen.com

- Antibodies, ELISA kits, proteins, biochemicals
- New and innovative small molecules and rare antibiotics

Bioassay

www.biocolor.co.uk

- Life science assays to measure soluble & insoluble collagen, glycosaminoglycans, elastin, hyaluronan, α -keratin, cell cycle phase

www.immunochemistry.com

- Cell viability assays, ELISA kits and reagents

Cell & Tissue Culture

www.phytotc.com

- Seed germination pouch for plant physiology, nematology, tissue transfer, legume inoculation

www.scbt.com

- Cell culture reagents such as DMSO, fibronectin, collagen, laminin, PMA, LPS, trypsin
- Growth promoters and apoptosis inducers

Lab Equipment & Instruments

www.hercuvan.com

- Gradient thermal cycler, real-time PCR system
- Microvolume spectrophotometers, FISH hybridization system, microplate reader & washer
- Liquid handling, sample concentrator, thermo shaker, centrifuge, shaking incubator, stirrer, vortex mixer, dry bath incubator
- Horizontal & vertical systems, blotting, isoelectric focusing, DGGE, power supplies
- Gel cutting tips, Western blot film

www.euromex.com

- World class life science, educational and industry microscopes and optical instruments
- New microscopy technology (iCare sensor, CSS system)
- Over 150 different models

Stem Cells

www.appliedstemcell.com

- Cell culture (MEF feeder cells, medium FBS, cytokines)
- Stem cell research, cell lines

www.systembio.com

- Exosome isolation kits, CRISPR/cas9 systems, lentivirus production, gene expression systems, stem cell reporters, exosome services
